

NEW ECAS CAR COMPRESSORS

As a global market leader in air suspension compressors, WABCO launched new compressor variants for the air suspension systems of Audi, Dodge, Jaguar, Porsche and Tesla.

The compressor is the heart of the Electronically Controlled Air Suspension (ECAS) supporting advanced driving capabilities, enhancing driving comfort and vehicle safety.

As a rule, original equipment suppliers offer the complete Air Supply Unit as a replacement in the event of a repair. WABCO has developed a repair solution to meet the needs of our independent aftermarket customers, offering a plug-and-play solution with a single compressor to repair the Air Supply Unit in the most cost efficient way.

Our new variants are technically equal to existing compressors of Original Equipment Suppliers (OES).
