# storage and handling

everything to store and transport tools

392-402 tool chests and roller cabinets  
403-407 tool boxes  
408-409 workshop trolleys  
410-412 organisers  
413-414 storage bins  
414-416 cabinets and lockers

417-418 shelving  
419-421 tool bags  
422-423 pouches, belts and stools  
424-425 trucks and trolleys  
426-434 tool kits

## STORAGE AND HANDLING

More products than ever to choose from! Look for the **NEW** product logos throughout.

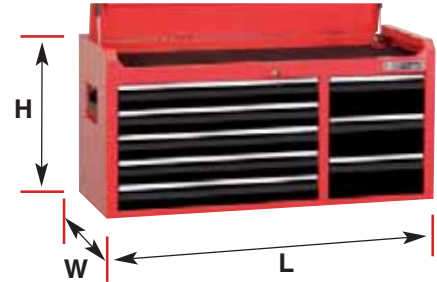

### HOW WE MEASURE OUR TOOL BOXES

**TOOL BOX DIMENSIONS** - The measurements in this Catalogue are approximate and shown as the following: Length (L), Width (W), and Height (H), and are shown in the information below each catalogue entry.

**STEEL TOOL BOXES AND CABINETS** - The drawers and storage space are measured showing the "internal" dimension, ie. inside the box or cabinet. This gives a more accurate assessment of the area inside the products - as the steel used to make the metal boxes can be up to 3 or 4mm thick.

**PLASTIC TOOL BOXES, STEEL STORAGE CABINETS AND TOOL CASES** - These are measured showing the "external" dimension. Generally these are made from thinner materials and the internal measurement is not as critical. We have also added the storage capacity in litres.

**NB: All dimensions can vary during production.**

### DRAPER EXPERT RANGE

Our top of the range chests and roller cabinets; many enhanced features including heavy-duty wheels attached with suspension, positive latching catches, anti-slip mats and precise ball bearing runners.

Pages 392-398
