hand tools

an extensive range of quality hand tools

206-227	pliers and cutters
228-229	riveters
230-257	screwdrivers
258-264	insert bits
264-268	hexagon keys
269-270	staplers and tackers
271-273	knives
274	multi-tools

THE ULTIMATE RANGE OF PLIERS

DRAPER EXPERT ERGO-PLUS

The ergo-plus® hand tools range has been extended to include both the angled head design and the traditional style. They've been developed using the latest technologies ensuring a new benchmark for excellence is achieved. All are individually tested and surpass the VDE/EN60900 standard.

Pages 206-209

GENERAL DUTY

An excellent general duty range for everyday use in the home or workshop. These carbon steel pliers still meet the highest quality and manufacturing standards, perfect for the DIY enthusiast or tradesperson.

Page 216

VDE HEAVY DUTY PLIERS

The professional electricians range is manufactured from chrome vanadium steel to VDE/EN60900 standards, the induction hardened cutting edges and soft grip handles with slip guards guarantee the user safe working on or around equipment up to 1000V AC or 1500V DC

Pages 210-211

COMPACT PATTERN

The compact pattern of these pliers makes them ideal for use on intricate work like model making, model engineering and jewellery making etc. These pliers represent exceptional value for the quality

Page 218

VDE PLIERS

The electricians range, manufactured from chrome vanadium steel to VDE/EN60900 standards designed for guaranteed safe working on or around equipment up to 1000V AC or 1500V DC

Page 212

ELECTRONICS SOFT GRIP

Ideal for work in environments where repetitive work is the norm - like circuit board assembly, solid state work and the like. Soft grip smooth handles for less fatigue on users hands.

Page 218

HEAVY DUTY SOFT GRIP

Manufactured from chrome vanadium steel to DIN specification for professionals and serious DIY persons. Heavy duty handles with soft grip and slip guards

Pages 213-214

PLIERS & ELECTRONICS RANGE

These pliers will give precision working and long service life in moderate volume assembly tasks

Page 219

GENERAL DUTY SOFT GRIP

Manufactured from carbon steel with soft grip handles for extra comfort - Ideal for trade or DIY use

Page 215

DIY SERIES

As the name implies, these pliers are ideal for DIY use. They offer exceptional value for money without sacrificing quality and are, as you would expect from Draper, fully guaranteed.

Pages 759-787

DRAPER[®] Expert ergo-plus[®]

VDE APPROVED FULLY INSULATED PLIERS - FOR PROFESSIONALS

The Draper Expert Ergo Plus[®] range now features two different types...

The original angled ergonomic head for comfort and allowing easier access for hard-to-get-at locations. Plus an additional **NEW** range with a traditional head design.

QUALITY ASSURANCE MAKES THE DIFFERENCE

PAUL SAYS

All our Draper Expert ergo-plus® hand tools in both the angled head design and the traditional style have been developed using the latest technologies and the finest materials.

Fabricated in a modern state-of-the-art German factory ensuring and delivering the benchmark for manufacturing excellence.

This first class manufacturing process coupled with our stringent five-stage quality control procedure (illustrated below) guarantees these tools provide the highest standards for professional electricians.

Impact Test

Impact tested at three points on the insulation material. Once the test has been conducted no cracks or breaks should be revealed.

Insulation Test

Immersed in water while a voltage of 10kV is applied for three minutes. No electrical puncture, sparkover, flashover should occur and limits of leakage current contained.

Adhesion Test

Conditioned for 168 hours at 70°C. Tensile test loaded to 500N for three minutes. Handles should remain attached to conducting parts.

Indentation Test

Force of 20N applied then a voltage of 5kV is passed between test device and the metal part for three minutes.

Flame Retardance Test

20mm flame applied to tool. Flame must not exceed 120mm due to the material's flame retardant properties.
